				Depth (in.)	9

Pallet Information

TI	10	Case Count	70	
HI	7	Pallet Weight (lbs)	1540	

Product Information

Ingredients	Carbonized Rambutan tree trimmings. Tapioca starch.		Shelf Life	Non-perishable
Storage Instructions	Keep in cool, dry area. Avoid moisture.			
Product Description	Thaan Charcoal is natural premium Binchotan-style ultra compressed log charcoal. It is a long burning, clean and natural alternative to commercial charcoal briquettes. It is made sustainably from fruit wood orchard trimmings, which imparts a very mild flavor. It lets your grilled food speak for itself! Thaan Charcoal's consistent, even heat is easy to cook with, and is great for any style of solid fuel cooking: grilling, barbequing, indirect cooking and particularly good where binchotan charcoal is traditionally used.			
Cooking Duration	3-5 hours	Heat Profile		
Special Notes	Thaan Charcoal can be reused. Once cooking is complete simply dunk the charcoal in water to extinguish, store in dry container, and reuse.
